RESPONSIBLE SOURCING: IT'S NOT JUST THE RIGHT THING, IT'S THE SMART THING.

Sony Pictures produces a vast array of content across all genres and platforms, enjoyed by millions of people around the world. The very nature of our business calls for diversity and inclusion.

We need suppliers who embody a full spectrum of viewpoints, work styles and cultures. How else can we make relevant entertainment for an ever-more diverse world?

SONY PICTURES RESPONSIBLE SOURCING STANDARDS AND PRACTICES

Sony Pictures has long partnered with diverse, highly-qualified businesses and individuals. We know that there are many more underutilized businesses that qualify, and should be heard. To that end, we reach out to minority-, woman-, LGBT, veteran-, and disabled-owned businesses via conferences and networking events, vendor receptions and social media. We are active members of the National Minority Supplier Development Council (NMSDC), Women's Business Enterprise National Council (WBENC), National LGBT Chamber of Commerce (NGLCC), WEConnect International, MSDUK and Disability:IN among others. We seek to foster these relationships in all communities where we do business.

Expect this from us

Diverse businesses that are registered can expect equal consideration on business projects with Sony Pictures. All suppliers will receive the same information about Sony Pictures purchasing processes. Upon request, bidders will receive timely feedback on proposal content and subsequent performance.
